

Half day workshop

“Mould...

09.15 - 09.30 **Arrival and coffee**

09.30 - 09.45 **Introduction to the course**

What is mould?

Detailed discussion of mould – what it is? How it affects your products? Materials it can be found in... and how and why it occurs

How to Prevent Mould

A detailed look at your supply chain and where mould can occur – advice on how to prevent it. An introduction to fungicides, information on how to store materials and products. Guidance on shipping.

Rogues Gallery

What to look for and how to identify. Examples of mould in products and a microscopic display of beauty of the beast! See mould grow!

Remediation

Is there a remediation solution? What are the safety issues? Will the mould return?

12.30 **Close**

*coffee served throughout the day
